Maroti Garad

JAVA BACKEND DEVELOPER | SPRING BOOT | MICROSERVICES | POSTGRESQL

Pune, Maharashtra, India | +91 90213 59511 | marutigarad58@gmail.com

PROFESSIONAL SUMMARY

Java Backend Developer with 5 years of experience developing and maintaining enterprise applications using Java, Spring Boot, REST APIs, microservices, and PostgreSQL. Experienced in backend service development, SQL query optimization, secure API implementation, CI/CD pipelines, debugging, and production support. Works collaboratively with business stakeholders, QA, UI, and DevOps teams in Agile environments and uses AI-assisted tools to support development and technical documentation.

TECHNICAL SKILLS

Languages: Java (8/11/17), SQL, JavaScript, Node.js

Frameworks & Libraries: Spring Boot, Spring MVC, Spring Security, JWT, Spring Data JPA, Hibernate, JUnit, Mockito

Architecture: Microservices, REST API design, Layered Architecture, Design Patterns, SOLID principles

Databases: PostgreSQL, MySQL, SQL query optimization, indexing, data modeling

Cloud & Messaging: AWS, Google Cloud Platform (GCP), Pub/Sub

DevOps & Tools: Git, GitHub, GitLab, Maven, Docker, CI/CD pipelines, Jira, IntelliJ IDEA, VS Code, Postman

Practices: Agile/Scrum, code reviews, root cause analysis, performance tuning, production support

PROFESSIONAL EXPERIENCE

System Engineer | Tata Consultancy Services (TCS), Pune

August 2024 – Present

• Collaborate with business stakeholders, QA, UI developers, and DevOps teams in an Agile environment to discuss requirements, contribute to design discussions, and deliver maintainable solutions.

• Maintain Git repositories, Maven builds, and CI/CD pipelines to support automated build and deployment workflows.

• Analyze and optimize PostgreSQL queries to improve database performance and application efficiency.

• Use AI-assisted development tools, including GitHub Copilot and ChatGPT, to support coding, debugging, and technical documentation while reviewing changes for quality.

• Contribute to application maintenance, troubleshooting, and production support.

Software Engineer | Indexnine Technologies, Pune

September 2021 – August 2024

• Developed and maintained enterprise applications using Java, Spring Boot, REST APIs, and microservices, following layered architecture and software engineering best practices.

• Implemented API authentication and authorization using Spring Security and JWT.

• Improved PostgreSQL database performance through SQL query optimization and data modeling.

• Built and integrated REST APIs with third-party systems to support reliable data exchange and application responsiveness.

• Performed code reviews, debugging, logging, and performance tuning; investigated production issues and supported root-cause analysis.

EDUCATION

Master of Computer Applications (MCA) — Dr. D. Y. Patil Institute of Management and Research, Pimpri, Pune | 2019–2022

Bachelor of Computer Applications (BCA) — Mahatma Phule College, Pimpri, Pune | 2016–2019

CODING & LEARNING

Active contributor on LeetCode, HackerRank, and Udemy coding/learning platforms.
